NOTE	1. All parameters NOT specially mentioned are measured at 230VAC input, rated current and 25°C of ambient temperature.
	2. Please refer to "DRIVING METHODS OF LED MODULE".
	3. Tolerance : includes set up tolerance, line regulation and load regulation.
	4. De-rating may be needed under low input voltages. Please refer to "STATIC CHARACTERISTIC" sections for details.
	5. Length of set up time is measured at first cold start. Turning ON/OFF the driver may lead to increase of the set up time.
	6. Based on IEC 62386-101/102 DALI power on timing and interruption regulations,the set up time needs to test with a DALI controller which can support for DALI power on function,otherwise the set up time will be longer than 500ms.
	7. Input over voltage only for XLG-75 I series,and I series without UL/CSA certificate.
	8. The driver is considered as a component that will be operated in combination with final equipment. Since EMC performance will be affected by the complete installation, the final equipment manufacturers must re-qualify EMC Directive on the complete installation again. (as available on https://www.meanwell.com/Upload/PDF/EMI_statement_en.pdf)
	9. The ambient temperature derating of 3.5°C/1000m with fanless models and of 5°C/1000m with fan models for operating altitude higher than 2000m(6500ft).
	10. Please refer to the warranty statement on MEAN WELL's website at http://www.meanwell.com
	11. This series meets the typical life expectancy of >50,000 hours of operation when Tcase, particularly (C) point (or TMP, per DLC), is about 75°C or less.
	12. Products sourced from the Americas regions may not have the CCC/PSE/BIS/KC logo. Please contact your MEAN WELL sales for more information.
	13. For any application note and IP water proof function installation caution, please refer our user manual before using. https://www.meanwell.com/Upload/PDF/LED_EN.pdf
	14. RCM is on a voluntary basis. Non IC classification Independent LED control gear is not suitable for residential installations;
	15. To fulfill requirements of the latest ErP regulation for lighting fixture, this LED driver can only be used behind a switch without permanently connected to the mains.
	16. This series need to consider build in using to comply with Type HL application.
